

Eleanor Sigel

East Palo Alto, CA | (708) 860-2250 | esigel@stanford.edu | eleanorsigel.com

Work Experience

Stanford University, Graduate School of Business

Stanford, CA

Pre-Doctoral Research Fellow

July 2025 – Present

- Conduct empirical research in public finance and tax policy with Professor Juan Carlos Suárez Serrato on projects studying tax incentives, R&D investment, labor markets, and corporate behavior.
- Build and manage large firm-level and individual-level datasets; design and execute econometric analyses in Stata and Python

Federal Reserve Bank of Chicago

Chicago, IL

Research Intern, Microeconomics Department

May 2024 – August 2024

- Conducted regression discontinuity analysis of Colombian import data for an industrial organization project studying the impact of the US–Colombia Trade Promotion Agreement,.
- Produced cleaned datasets from comprehensive US Court of Appeals case and judge data; computed descriptive statistics and ran statistical tests motivating early stages of an applied microeconomics project.

University of Southern California, Department of Economics

Los Angeles, CA

Research Assistant to Dr. Augustin Bergeron

February 2022 – August 2024

- Used Stata, R, and QGIS to visualize and analyze spatial, survey, and historical data.
- Translated and cleaned French-language survey data collected in developing context, review existing literature on survey design and apply findings to format questionnaires in experimental survey research projects.

Embry-Riddle Aeronautical University (NSF REU)

Daytona Beach, FL

Research Fellow

May 2023 – July 2023

- Partnered with the Nevada National Security Site to quantify blur and estimate uncertainty in deblurring algorithms; reframed deblurring as a linear inverse problem and applied machine learning and statistical methods in Python.
- Presented results at 2024 Joint Mathematics Meeting in a project titled “Uncertainty Propagation in Image Deblurring”.

Education

Stanford University, Graduate School of Business

Stanford, CA

Pre-Doctoral Research Fellow

July 2025 – Present

- Coursework (All PhD Level): Microeconomic Analysis I (P), Microeconomic Analysis II (HP), Topics in Economic History (A-)

University of Southern California

Los Angeles, CA

B.A. Economics (Magna Cum Laude) and B.A. Mathematics, May 2025 | GPA: 3.74

- Honors: Presidential Scholar; University Scholar; Student Opportunities for Academic Research Award
- Relevant coursework: Introduction to Econometrics, Mathematical Statistics, Probability Theory, Real Analysis, Game Theory, Modern Algebra, International Finance, Advanced Programming in Python, Optimization, Macroeconomic Analysis and Policy (master's level).

Sciences Po

Paris, France

Exchange — Certificate of Studies in the Humanities and Social Sciences, January–May 2024 | Converted GPA: 3.73

- Coursework: Public Economics, Urban Economics, Economics of Migration, Economic Outlook Assessment.

Skills & Interests**Technical:** Stata, Python, SQL, Econometrics, LaTeX, QGIS.**Languages:** English (native), French (advanced).**Interests:** Ultrarunning, cycling, backpacking, skiing, food writing.
