Work Experience

Casco — agentic security engineer for software companies and government (YC, Series A) San Francisco, CA
Security Architect *September 2026 – Present*

- Built and shipped an internal social publishing app (Next.js on Vercel) that drafts posts with Claude in the company voice, routes them through team approval, and publishes to LinkedIn, X, and Reddit.
- Built event-led pipeline for security conferences (BSides NYC, CISO events): enriched and scored attendee lists, prioritized invite prospects, and planned booth and dinner outreach.
- Analyzed audience data by mapping LinkedIn engagers to NAICS industries using people and company enrichment, informing targeting for campaigns and events.

LiteLLM — open-source LLM gateway (YC) San Francisco, CA
GTM Engineer *August 2026 – September 2026*

- Designed and ran automation experiments within the sales process, building LLM-powered workflows for prospecting and pipeline management.
- Developed success metrics with the support and engineering teams to track customer outcomes and issue resolution.
- Assisted with financial and data analysis to inform go-to-market decisions, working in Vercel, Pylon, Linear, Clay, and Attio.

Stanford University, Graduate School of Business Stanford, CA
Pre-Doctoral Research Fellow *July 2025 – July 2026*

- Conducted empirical research in public finance and tax policy with Professor Juan Carlos Suárez Serrato on projects studying tax incentives, R&D investment, labor markets, and corporate behavior.
- Built and managed large firm-level and individual-level datasets; designed and executed econometric analyses in Stata and Python.
- PhD coursework: Microeconomic Analysis I (P) and II (HP), Topics in Economic History (A−).

Federal Reserve Bank of Chicago Chicago, IL
Research Intern, Microeconomics Department *May 2024 – August 2024*

- Conducted regression discontinuity analysis of Colombian import data for an industrial organization project studying the impact of the US–Colombia Trade Promotion Agreement.
- Produced cleaned datasets from comprehensive US Court of Appeals case and judge data; computed descriptive statistics and ran statistical tests motivating early stages of an applied microeconomics project.

University of Southern California, Department of Economics Los Angeles, CA
Research Assistant to Dr. Augustin Bergeron *February 2022 – August 2024*

- Used Stata, R, and QGIS to visualize and analyze spatial, survey, and historical data.
- Translated and cleaned French-language survey data collected in a developing context; applied survey-design literature to format questionnaires for experimental survey research.

Embry-Riddle Aeronautical University (NSF REU) Daytona Beach, FL
Research Fellow *May 2023 – July 2023*

- Partnered with the Nevada National Security Site to quantify blur and estimate uncertainty in deblurring algorithms; reframed deblurring as a linear inverse problem and applied machine learning and statistical methods in Python.
- Presented results at the 2024 Joint Mathematics Meetings in a project titled “Uncertainty Propagation in Image Deblurring.”

Education

University of Southern California Los Angeles, CA
B.A. Economics (Magna Cum Laude) and B.A. Mathematics | GPA: 3.74 *May 2025*

- Honors: Presidential Scholar; University Scholar; Student Opportunities for Academic Research Award.
- Relevant coursework: Introduction to Econometrics, Mathematical Statistics, Probability Theory, Real Analysis, Game Theory, Modern Algebra, International Finance, Advanced Programming in Python, Optimization, Macroeconomic Analysis and Policy (master’s level).

Sciences Po Paris, France
Exchange — Certificate of Studies in the Humanities and Social Sciences | Converted GPA: 3.73 *January – May 2024*

- Coursework: Public Economics, Urban Economics, Economics of Migration, Economic Outlook Assessment.

Skills & Interests

Technical: Python, SQL, Stata, R, Econometrics, LaTeX, QGIS, Next.js, Vercel, LLM workflow automation (Claude, LiteLLM). **GTM tools:** Clay, Attio, Pylon, Linear, PostHog.

Languages: English (native), French (advanced). **Interests:** Ultrarunning, cycling, backpacking, skiing, food writing.
